

# **DRAFT COMMITTEE REPORT**

## **RENEWABLE ENERGY PROGRAM 2011 ANNUAL REPORT TO THE LEGISLATURE APPENDIX**

NOVEMBER 2011

CEC-300-2011-007-CTD-AP

# CALIFORNIA ENERGY COMMISSION

## RENEWABLES COMMITTEE

Carla Peterman  
*Commissioner*  
***Presiding Member***

James D. Boyd  
*Vice Chair*  
***Associate Member***

Jim Folkman, James Lee,  
Le-Quyen Nguyen, Garry O'Neill  
Otto Tang  
***Primary Authors***

Lorraine Gonzalez  
Madeleine Meade  
***Project Manager***

Tony Gonçalves  
***Office Manager***  
***Renewable Energy Office***

Panama Bartholomy  
***Deputy Director***  
***Energy Efficiency and Renewables Division***

Robert P. Oglesby  
***Executive Director***

# TABLE OF CONTENTS

## **APPENDIX A: Renewables Portfolio Standard Program**

Table A-1. IOU RPS Contract Activity in FY 2010-2011 .....	A-1
--	-----

Table A-2. Facilities Certified or Precertified as RPS eligible in FY 2010-2011 .....	A-7
---	-----

## **APPENDIX B: Emerging Renewables Program**

Table B-1. Summary of Approval and Payment Activity in IOU Service Areas .....	B-1
--	-----

Table B-2. Systems in IOU Service Areas Completed in FY 2010-2011 .....	B-2
---	-----

Table B-3. Approved Systems Remaining Encumbered as of June 30, 2011 .....	B-5
--	-----

## **APPENDIX C: New Solar Homes Partnership**

Table C-1. Summary of Approval and Payment Activity in IOU Service Areas .....	C-1
--	-----

Table C-2. Systems in IOU Service Areas Completed in FY 2010-2011 .....	C-2
---	-----

Table C-3. Approved Systems in IOU Service Areas Remaining Encumbered .....	C-31
---	------

## **APPENDIX D: Existing Renewable Facilities Program**

Table D-1. Eligible Generation per Utility by Technology .....	D-1
--	-----

Table D-2. Total Eligible Generation per Utility .....	D-4
--	-----

Table D-3. Payments per Utility by Technology .....	D-5
---	-----

Table D-4. Total Payments per Utility .....	D-8
---	-----

Table D-5. Summary of Eligible Facilities by Utility .....	D-9
--	-----

Table D-6. Existing Renewable Facilities Program Summary .....	D-10
--	------

Table D-7. Summary of Biomass Fuel Usage for Eligible Biomass Facilities .....	D-11
--	------

## **APPENDIX E: Consumer Education Program**

WREGIS Contract Support.....	E-1
------------------------------	-----

APX, Inc.....	E-1
---------------	-----

Western Electricity Coordinating Council .....	E-1
--	-----

KEMA Technical Support Contract .....	E-1
---------------------------------------	-----

KEMA/Engage – The Solar Advantage Value Estimator .....	E-1
---	-----

KEMA/Engage – NSHP Online Tool.....	E-2
-------------------------------------	-----

KEMA/Engage – NSHP Program Evaluation.....	E-2
--	-----

KEMA/Smartpower – Emerging Renewables Program Small Wind Marketing & Outreach.....	E-2
Other Consumer Education Activities .....	E-2
Clean Energy States Alliance.....	E-2
Information, Integration, Innovation & Associates, Inc. ....	E-3
Small Wind Energy Evaluation Tool.....	E-3
Aerial Information Systems, Incorporated.....	E-3
Clean Power Estimator.....	E-4
C&G Technology Services, Inc. ....	E-4

# **APPENDIX A**

## **Renewables Portfolio Standard Program**

Table A-1. IOU RPS Contract Activity in FY 2010-2011 .....A-1

Table A-2. Facilities Certified or Precertified as RPS eligible in FY 2010-2011 .....A-7

**Table A-2. Facilities Certified or Precertified as RPS eligible in FY 2010-2011**

**Additional Terms of Note:**

**MJU Only:** In the "Location" column, facilities are defined as in-state, out-of-state, or MJU Only. Facilities designated as MJU Only are located out-of-state and came online before January 1, 2005, but have been RPS certified pursuant to Public Utilities Code 399.17. RECs from MJU-Only facilities can only be retired by the MJU listed on the

**Eligibility Date:** RECs from generation by a certified or utility certified facility that occurred on or after this date is considered eligible for California's RPS program, subject to all other eligibility restrictions.

**Utility Cert:** RECs from generation by facilities listed with an "E" suffix and/or shown as Utility Cert in the "Certification Type" column are only eligible to meet the RPS obligations of the retail seller that certified the facility.

Facility Name	City	State	Location Type	Online	Capacity (MW)	Technology	RPS ID	Certification Type	Eligibility Date
Sycamore Energy 1 LLC	Santee	CA	In State	12/31/1988	1.8	Landfill Gas	60011A	Cert	Jul-04

## **APPENDIX B**

### **Emerging Renewables Program**

Table B-1. Summary of Approval and Payment Activity in IOU Service Areas .....	B-1
Table B-2. Systems in IOU Service Areas Completed in FY 2010-2011 .....	B-2
Table B-3. Approved Systems Remaining Encumbered as of June 30, 2011.....	B-5

**Table B-1: Emerging Renewables Program  
Summary of Approval and Payment Activity in IOU Service Areas**

		7/1/2010 - 6/30/2011
<b>Systems Completed During FY 2010-2011</b>		
Number of systems		140
Total Capacity (in kW)		1,177
<b>Total Funds Paid*</b>		\$2,992,168
<b>Funds Remaining Encumbered as of June 30, 2011</b>		
Number of systems		278
Total Capacity (in kW)		2,547
<b>Estimate of Total Funds Encumbered</b>		\$7,136,495
<b>Total Paid During FY 2010-2011 and Encumbered as of June 30, 2011</b>		
Number of systems		418
Total Capacity (in kW)		3,724
<b>Total</b>		\$10,128,663
* Includes FY 2010-2011 Emerging Renewables Program payments and Performance-Based Incentive Program payments.		

Table B-2: Emerging Renewables Program  
Systems in IOU Service Areas Completed in FY 2010-2011  
(sorted by completion date)

Table C-1. Summary of Approval and Payment Activity in IOU Service Areas .....	C-1
Table C-2. Systems in IOU Service Areas Completed in FY 2010-2011 .....	C-2
Table C-3. Approved Systems in IOU Service Areas Remaining Encumbered .....	C-31

**Table C-1: New Solar Homes Partnership  
Summary of Approval and Payment Activity in IOU Service Areas**

	<b>7/1/2010-6/30/2011</b>
<b>Systems Completed During FY 2010-2011</b>	
Number of Systems	1,185
Total Capacity (in AC-kW)	4,816
<b>Total Funds Paid</b>	<b>\$13,346,926</b>
<b>Systems Remaining Encumbered as of June 30, 2011</b>	
Number of Systems	7,821
Total Capacity (in AC- kW)	18,915
<b>NSHP Webtool Estimate of Total Funds Encumbered*</b>	<b>\$52,405,306</b>
<b>Total Paid During FY 2010-2011 and Encumbered as of June 30, 2011</b>	
Number of Systems	9,006
Total Capacity (in AC-kW)	23,731
<b>Total</b>	<b>\$65,752,232</b>

\*As of June 30, 2011, Accounting encumbrance balance of \$52,679,854 includes excess funds that are pending disencumbrance. Encumbrance discrepancy includes applicants' on-line modifications to their rebate amounts triggered by changes to their solar systems. At payment time, rebate amounts are verified with documentation submitted by applicant.

## **Consumer Education Program**

### ***Fiscal Year 2010–2011 Active Contracts: Encumbrances and Cumulative Expenditures***

#### ***Western Renewable Energy Generation Information System (WREGIS) Contract Support***

As part of the Renewables Portfolio Standard implementation process, the California Energy Commission, with Western Electricity Coordinating Council (WECC) and APX, Inc., has implemented and continues to operate the WREGIS to track renewable energy generation in the Western Interconnect. Energy Commission activities dedicated to WREGIS development and funded by Consumer Education Program funds include the following efforts.

**Contractor:** APX, Inc.  
**Term:** October 2006 through June 2010  
**Amount:** \$3.278 million contract; \$2,554,864 expended

As the system development and technical operations contractor for WREGIS, APX, Inc., performed operations and maintenance for the WREGIS software and made changes to the system that had been approved through the change control process.

**Contractor:** Western Electricity Coordinating Council  
**Term:** September 2006 through March 2011  
**Amount:** \$2.203 million contract; \$1,171,955 expended

The WREGIS staff at WECC performs the day-to-day administrative operations of the WREGIS program. Expended \$0 in fiscal year 2010-2011; from February 2009 through June 30, 2011, all WREGIS at WECC expenses have been met with user fees.

#### ***KEMA Technical Support Contract***

**Contractor:** KEMA/Engage – The Solar Advantage Value Estimator (SAVE)  
**Term:** November 2010 through March 2012  
**Amount:** \$220,652 encumbered; \$69,408 expended

This work authorization was executed November 2010 to develop the Solar Advantage Value Estimator tool designed to estimate the present value of a solar photovoltaic system including the estimated value in annual energy savings.

**Contractor:** KEMA/Engage – NSHP Online Tool  
**Term:** November 2010 through March 2012  
**Amount:** \$357,662 encumbered; \$72,858 expended

This work authorization was executed in November 2010 to provide technical support and maintenance for the New Solar Homes Partnership (NSHP) web tool. The NSHP Web tool is an online application tool designed to streamline the application and payment process for NSHP customers. It also facilitates the application and payment reviews by the NSHP's program administrators, allowing them to easily communicate with customers.

**Contractor:** KEMA/Engage – NSHP Program Evaluation  
**Term:** October 2010 through September 2011  
**Amount:** \$77,856 encumbered; \$38,410 expended

This work authorization was executed October 2010 for KEMA to review and evaluate the NSHP program including: 1) NSHP achievements and progress-to-date, 2) main external and internal barriers to reaching NSHP program goals, and 3) key recommendations (policy, process, and program guidelines) to increase NSHP participation and make the NSHP program as successful as possible.

**Contractor:** KEMA/Smartpower – Emerging Renewables Program  
Small Wind Marketing & Outreach  
**Term:** October 2010 through January 2011  
**Amount:** \$39,699 encumbered; \$23,422 expended

This work authorization was executed in October 2010 to develop a successful multipronged marketing and outreach plan to promote the higher Emerging Renewables Program rebate level for small wind. The marketing and outreach plan identified promotional activities including direct mail, social media, partnership leveraging, and development of marketing collateral. These promotional activities would serve as methods to increase consumer market penetration of small wind energy installations.

### ***Other Consumer Education Activities***

**Contractor:** Clean Energy States Alliance  
**Term:** May 18, 2011 through May 17, 2012  
**Amount:** \$61,000 encumbered; \$61,000 expended

The Clean Energy States Alliance (CESA) contract, approved in May 2011, is a one-year \$61,000 membership agreement with the Energy Commission. CESA is an unprecedented multi-state collaboration of clean energy funds that have banded together and pooled resources to expand the use of clean energy across the country by supporting solar, wind, fuel cells and other clean

energy projects and companies. At present, there are 16 member states with CESA attracting the interest of a number of other state clean energy programs. CESA provides members the opportunity to share best practices and lessons learned, and participate in collective problem solving focused toward effectively implementing their various clean energy programs. CESA is managed by the Clean Energy Group, a nonprofit organization, and has existed since 2002.

**Contract Name:** Information, Intergration, Innovation & Associates, Inc.  
**Term:** October 8, 2009 through October 30, 2011  
**Amount:** \$75,000 encumbered; \$75,000 expended

This two-year contract for \$75,000, executed in October 2009, provided maintenance and support for the NSHP program Web tool. This contract finished in January 2011. During this contract, Information, Integration, Innovation & Associates completed work to streamline the online program application tool processes and develop new enhancements in response to stakeholders' feedback.

**Contract Name:** Small Wind Energy Evaluation Tool (SWEET)  
**Term:** June 30, 2010 through June 30, 2011  
**Amount:** \$65,000 encumbered; \$0.00 expended

This contract was to develop a publicly accessible Web-based small wind energy assessment tool to help analyze the potential performance and economic payback of a small wind turbine. The contractor modified and expanded upon a small wind assessment tool, known as CWEC-SWEET, which it developed, and combined it with existing Energy Commission-developed Geographic Information System wind maps to develop a new small wind energy assessment tool.

**Contract Name:** Aerial Information Systems, Incorporated  
**Term:** April 18, 2011 through March 31, 2013  
**Amount:** \$500,000 encumbered; \$0.00 expended

Aerial Information Systems, Incorporated (AIS, Inc.), will conduct research on vegetation sampling and mapping, and collect information that may assist with the permitting of renewable energy projects in the portion of the California Mojave Desert covered by the Desert Renewable Energy Conservation Plan. The area to be studied and mapped is 1.1 million acres and is considered the highest priority for near-term renewable siting by Desert Renewable Energy Conservation Plan stakeholders.

**Contract Name:** Clean Power Estimator  
**Term:** Bi-Annual expense through the duration of NSHP  
**Amount:** \$0.00 expended this year

The Clean Power Estimator is a calculation tool that allows an electric customer to evaluate the performance, costs, and savings of a solar electric system. The tool uses customer inputs such as system size, cost, location, and orientation, and combines them with precollected data (electric rate schedules; federal and state income tax rates; federal, state, and utility economic incentives; local weather data; electric load profiles; and PV system performance) and analyzes the information using published research methods to generate a customized estimate of the costs and savings of installing a PV system. The Energy Commission pays every other year for access, maintenance, and upkeep of the tool. The CPUC pays for access to the Clean Power Estimator during the off years.

**Contract Name:** C&G Technology Services, Inc.  
**Term:** February 17, 2010 through June 30, 2011  
**Amount:** \$143,550 encumbered; \$143,550 expended

This contract creates a Web implementation of the California Utility Allowance Calculator (CUAC), which is a stand-alone Microsoft Access® database application. The CUAC is a tool designed to calculate project-specific utility allowances for low-income, multifamily housing projects. Energy Commission staff worked with the contractor on simultaneously translating the current CUAC tool into a Web-based tool and making substantial upgrades.
